

Go Bright

Guess our research investment

Donate £2 to play

Answer:
£1,997,000

Guess how much we invested into research projects last year. Whoever gets closest will win a prize! Write your name, email and guess overleaf and don't forget to donate.

How to organise

1. Tear off the corner with the answer and keep it safely hidden.
2. We suggest players donate a minimum of £2 to take a guess. But no donation is required to play.
3. Decide what the prize will be – a donated prize, favour, or some of the money raised?
4. Players will need to write their name and guess on the sweepstake.
5. Once everyone has made their guess and the donations are in, you can announce the winner.

Once the prize has been given out, all remaining funds will count towards your fundraising total.
